

Senate Bill 3255

1) Senate Bill 3255 -Medicare and Health Plan Reimbursement of Custom Fabricated Breast Prostheses

- breasts remain the only body part whose custom prosthetic replacement is not reimbursed by Medicare. Please go to the following link to learn more about this issue.

<http://www.politico.com/news/stories/0910/42782.html>

2) Please send this to everyone you know across the country and ask them to send this text to their Congress Reps. and Senators. Then ask them to send it to everyone they know! Even if someone has already sent a message please ask them to send this. We need to get co-sponsors for these bills. Thanks!!

The Custom Fabricated Prosthetic Breast Act of 2010

http://www.senate.gov/general/contact_information/senators_cfm.cfm

For Senators

As a constituent, I urge you become a co-sponsor of S3255. The Custom Fabricated Prosthetic Breast Act of 2010. Many women do not want or medically are not candidates for reconstructive surgery. Further, surgery is significantly more expensive initially and is substantially more costly over the woman's lifetime. Surgery also has inherent risks which increase with age of the patient and implant replacement surgery is required for the rest of her life. Custom breast prostheses are without risk and are significantly less expensive. Thank you for your support of this very important legislation.
